Proceedings of SPIE, 1605-7422, V. 11956

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Biophotonics in Exercise Science, Sports Medicine, Health Monitoring Technologies, and Wearables III
edited by Babak Shadgan, Amir H. Gandjbakhche, Proc. of SPIE Vol. 11956, 1195601
© 2022 SPIE · 1605-7422 · doi: 10.1117/12.2635643

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Biophotonics in Exercise Science, Sports Medicine, Health Monitoring Technologies, and Wearables III*, edited by Babak Shadgan, Amir H. Gandjbakhche, Proc. of SPIE 11956, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

WEARABLE OPTICAL BIOSENSING II

11956 02 **Accurate measurement of SpO₂ and dermal skin hydration using a wearable miniaturized spectrometer** [11956-8]

11956 03 **Broad-bandwidth frequency-domain near-infrared spectroscopy system on a chip** [11956-10]

OPTICAL METHODS AT THE BEDSIDE I

11956 04 **Combined near-infrared spectroscopy (NIRS) and electroencephalography (EEG) in gamma-band during pain perception (CPT)** [11956-29]

IMPLANTABLE BIOPHOTONICS

11956 05 **Near-infrared spectroscopy and electroencephalography during spreading depression** [11956-30]

11956 06 **A method for the fixation of an implantable spinal cord NIRS sensor** [11956-16]

11956 07 **Histological assessment of an implantable optical sensor and spinal cord tissue interface** [11956-17]

OPTICAL BIOSENSING METHODS

11956 08 **Multi-modal physiological sensing on the upper arm** [11956-18]

OPTICAL METHODS IN EXERCISE SCIENCES

11956 09 **Home-based monitoring of lower urinary tract health: simultaneous measures using wearable near infrared spectroscopy and linked wireless scale** [11956-14]

OPTICS AND TISSUE

- 11956 0A **Studying the effects of externally applied pressure on soft tissue oxygenation** [11956-28]
- 11956 0B **Rapid blood-oxygenation-saturation measurement using radially polarized light from light-emitting diodes** [11956-13]

WEARABLE OPTICAL BIOSENSING I

- 11956 0C **Near infrared spectroscopy as an adjunctive technology in the care of spinal cord and brain (Invited Paper)** [11956-26]
- 11956 0D **Technological advances in near infrared spectroscopy devices and parameters measured: examples from clinical studies of the urologic system** [11956-1]

OPTICAL METHODS AT THE BEDSIDE II

- 11956 0E **Studying the accuracy of infrared thermography for measuring core body temperature** [11956-15]

POSTER SESSION

- 11956 0F **Multimodal wearable platform for remote monitoring of breathing patterns, cough events and blood oxygen level** [11956-19]

Conference Committee

Symposium Chairs

Jennifer K. Barton, The University of Arizona (United States)
Wolfgang Drexler, Medizinische Universität Wien (Austria)

Program Track Chairs

Tuan Vo-Dinh, Duke University (United States)
Anita Mahadevan-Jansen, Vanderbilt University (United States)

Conference Chairs

Babak Shadgan, International Collaboration on Repair Discoveries
(Canada)
Amir H. Gandjbakhche, Eunice Kennedy Shriver National Institute of Child
Health and Human Development (United States)

Conference Program Committee

Willy N. J. M. Colier, Artinis Medical Systems B.V. (Netherlands)
Guy D. Dumont, The University of British Columbia (Canada)
Marco Ferrari, Università degli Studi dell'Aquila (Italy)
Takafumi Hamaoka, Tokyo Medical University (Japan)
Andrew J. Macnab, The University of British Columbia (Canada)
Anita Mahadevan-Jansen, Vanderbilt University (United States)
Patrick Neary, University of Regina (Canada)
T. Joshua Pfefer, U.S. Food and Drug Administration (United States)
W. Darlene Reid, University of Toronto (Canada)
Behrouz Shabestari, National Institute of Biomedical Imaging and
Bioengineering (United States)
Robert V. Warren, Hamamatsu Ventures (United States)
