

PROCEEDINGS OF SPIE

***International Symposium on
Artificial Intelligence Control
and Application Technology
(AICAT 2022)***

Wei Wei
Editors

6–8 May 2022
Hangzhou, China

Organized by
East China Jiaotong University (China)

Sponsored by
AEIC Academic Exchange Information Center (China)

Published by
SPIE

Volume 12305

Proceedings of SPIE 0277-786X, V. 12305

International Symposium on Artificial Intelligence Control and Application Technology (AICAT 2022),
edited by Wei Wei, Proc. of SPIE Vol. 12305, 1230501 · © 2022 SPIE · 0277-786X · doi: 10.1117/12.2646732

Proc. of SPIE Vol. 12305 1230501-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Symposium on Artificial Intelligence Control and Application Technology (AICAT 2022)*, edited by Wei Wei, Proc. of SPIE 12305, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

INTELLIGENT CONTROL AND ROBOT SIMULATION TECHNOLOGY

- 12305 02 **Simulation and testing platform of oil and gas station industrial control system based on digital twin technology** [12305-60]
- 12305 03 **Performance analysis of anti-multipath fading in the short wave communication based on the chaotic FH-SS technology** [12305-3]
- 12305 04 **Design of radar intelligent prognostic and health management architecture based on digital twin** [12305-1]
- 12305 05 **Variable speed limit control of traffic flow in expressway construction zone** [12305-64]
- 12305 06 **Research progress in the application of laser cleaning machine control systems** [12305-4]
- 12305 07 **Positioning method of high voltage cable in low power open pit coal mine based on GPS** [12305-22]
- 12305 08 **Application analysis of PLC techniques in automatic production line of automobile** [12305-54]
- 12305 09 **TFD-MelGAN: personalized voiceprint feature speech synthesis based on multi-domain signal processing** [12305-46]
- 12305 0A **Gait research and simulation analysis of biped robot** [12305-23]
- 12305 0B **Study on stability control method of multi-load coupled spraying UAV** [12305-29]
- 12305 0C **Automatic obstacle avoidance tracing vehicle control system design** [12305-11]
- 12305 0D **Design of warehouse remote intelligent monitoring system** [12305-10]
- 12305 0E **Construction and practice of production control mode for intelligent manufacturing of preliminary processing on Lotus exclusive line** [12305-66]
- 12305 0F **Research on gas drainage pump system based on swarm intelligence algorithm** [12305-74]
- 12305 0G **Application of model predictive control theory to lateral control of intelligent vehicles** [12305-25]
- 12305 0H **A UAV multi-agent countermeasures behavior planning for improving positioning** [12305-7]

- 12305 OI **Tension control of airline baggage labeling machine based on neural network PID** [12305-41]
- 12305 OJ **Coal quantity detection of conveyor belt based on improved YOLOv5 algorithm** [12305-61]
- 12305 OK **A real-time voxel 3D reconstruction based on disparity estimation combined with SLAM** [12305-45]
- 12305 OL **Miss distance evaluation based on UAV video image** [12305-57]
- 12305 OM **Research on wireless metering based on high-precision synchronous time calibrating and broadband transmission** [12305-14]
- 12305 ON **Research on transmission line lightning arrester online monitoring system based on wireless communication technology** [12305-24]
- 12305 OO **Design of parking guidance system in intelligent parking lot** [12305-71]
- 12305 OP **Research high fall safety management of building based on BIM technology** [12305-32]
- 12305 OQ **Multi-channel video acquisition and storage technology based on GMSL** [12305-65]
- 12305 OR **Design of variable gain auto disturbance rejection controller for photoelectric stabilization platform** [12305-47]
- 12305 OS **Match filter application in beat tracking by specific instrument sound in drum set music sequence** [12305-18]
- 12305 OT **The compare between two DNN-based signal suppression methods** [12305-58]
- 12305 OU **Variable arm length quadrotor control based on adaptive integral backstepping method** [12305-56]
- 12305 OV **Design and implementation of the visualized auxiliary wiring detection system for electric distribution cabinet** [12305-67]

INFORMATION TECHNOLOGY AND COMPUTER APPLICATION TECHNOLOGY

- 12305 OW **How to apply deep reinforcement learning to multi-dimensional intelligent reasoning** [12305-70]
- 12305 OX **User behavior prediction based on fusion model** [12305-63]
- 12305 OY **Fast grouping for large scale optimization problem** [12305-8]
- 12305 OZ **Typhoon track prediction based on LSTM network** [12305-73]

- 12305 10 **Traffic sign recognition based on YOLOv5** [12305-69]
- 12305 11 **BiLSTM-IN-TRANS for Chinese NER** [12305-2]
- 12305 12 **A two-layer heuristic optimization algorithm for large-scale vehicle routing problem with drones** [12305-6]
- 12305 13 **Transformer-based conditional generative adversarial networks for image generation** [12305-13]
- 12305 14 **Quality changes and building prediction models of shelf life in winter jujube under different storage conditions** [12305-43]
- 12305 15 **Research on fault diagnosis technology of hydropower station grounding grid based on adaptive algorithm** [12305-28]
- 12305 16 **The differences between VDN and COMA algorithms in PyMARL and implications for their win rate in different SMAC scenarios** [12305-37]
- 12305 17 **Research on information interoperability of grains and oil supply chain based on identification resolution system of industrial internet** [12305-9]
- 12305 18 **Motion blur image restoration based on generative adversarial networks** [12305-17]
- 12305 19 **Research on the impact of new generation information technology on intelligent manufacturing capability** [12305-12]
- 12305 1A **A construction technology of automatic reasoning system based on knowledge graph** [12305-72]
- 12305 1B **Research on network identity association and character relationship portrait based on case-oriented big data** [12305-59]
- 12305 1C **Automatic text classification system based on AI technology** [12305-55]
- 12305 1D **New model and method of trusted charging for wide area free flow of vehicles on BeiDou lane-level expressway** [12305-15]
- 12305 1E **A survey to applications of deep learning in autonomous driving** [12305-52]
- 12305 1F **Intelligent import of standard address based on geocoding and TF-IDF** [12305-19]
- 12305 1G **Research on building energy consumption prediction based on multi-level attention mechanism** [12305-62]
- 12305 1H **Based on wavelet packet and BP neural network of aircraft cable insulation layer defect type identification** [12305-30]
- 12305 1I **A scheme of spectrum monitoring and positioning system based on aerial platform** [12305-36]

- 12305 1J **Room compensation using eigenspace adaptive and wave-domain adaptive filtering**
[12305-40]
- 12305 1K **Distributed data management system for industrial park** [12305-21]
- 12305 1L **Deep-learning-based OFDM channel compensation hardware implementation algorithm design** [12305-42]
- 12305 1M **Optimization of CAN-FD message packaging method based on genetic algorithm** [12305-39]
- 12305 1N **Defense against adversarial attack by feature distillation and metric learning** [12305-31]
- 12305 1O **Research on target data allocation of anti-radiation UAV** [12305-34]
- 12305 1P **Research on logistics UAV task assignment based on improved ant colony algorithm** [12305-35]

Conference Committee

Committee Chair

Dan Zhang, York University (Canada)

Publication Chair

Shengxiang Yang, De Montfort University (United Kingdom)

Technical Program Committee Chair

Yanjiao Chen, Zhejiang University (China)

Technical Program Committee

Nirmalya Thakur, University of Cincinnati (United States)

Rajeev Tiwari, Department of Virtualization School of Computer Science,
University of Petroleum and Energy Studies (India)

Sahil Verma, Lovely Professional University (Phagwara)

Saleh Mobayen, University of Tabriz (Iran)

M. A. Teeti, East China University of Technology (ECUT) (China)

Salija P, Government Engineering College, (India)

Ariffin Nor Hapiza, Information System DEPARTME, Universiti Teknologi Mara, Selangor,
(Malaysia)

Aslina Baharum, User Experience Research Laboratory, Universiti Malaysia
Sabah (Malaysia)

Qasim Abdullah Hassan Al-Ajmi, A' Sharqiah University (Oman)

Dimitrios Kollias, University of Greenwich (United Kingdom)
