

PROCEEDINGS OF SPIE

***International Conference on
Applied Statistics, Computational
Mathematics, and Software
Engineering (ASCMSE 2022)***

**Steven Guan
Haibin Zhu**
Editors

**20–22 May 2022
Qingdao, China**

Organized by
Guangzhou Computer Society (China)

Sponsored by
AEIC Academic Exchange Information Center (China)

Published by
SPIE

Volume 12345

Proceedings of SPIE 0277-786X, V. 12345

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

International Conference on Applied Statistics, Computational Mathematics, and Software Engineering
(ASCMSE 2022), edited by Steven Guan, Haibin Zhu, Proc. of SPIE Vol. 12345,
1234501 · © 2022 SPIE · 0277-786X · doi: 10.1117/12.2659451

Proc. of SPIE Vol. 12345 1234501-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Applied Statistics, Computational Mathematics, and Software Engineering (ASCMSE 2022)*, edited by Steven Guan, Haibin Zhu, Proc. of SPIE 12345, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

COMPUTATIONAL MATHEMATICS AND FUNCTIONAL LINEAR EQUATIONS

- 12345 02 **Method of computing an integral [12345-37]**
- 12345 03 **Almost average shadowing property of iterated function systems [12345-18]**
- 12345 04 **A result of forming traveling salesman problem to minimize traveling distance within European continent [12345-15]**
- 12345 05 **Apply the contour integral on multivalued function from the complex plane [12345-41]**
- 12345 06 **Rosen's gradient projection method for solving a constrained convex programming problem [12345-57]**
- 12345 07 **Applications of the infinite series of Cauchy residue theorem and its extensions [12345-31]**
- 12345 08 **Perturbation bounds for spectral radius and singular values of real nonnegative diagonally dominant tridiagonal matrix [12345-50]**
- 12345 09 **Adaptive time step finite element approximation for anomalous diffusion equation [12345-30]**
- 12345 0A **Proof of equation of complex variable function [12345-49]**
- 12345 0B **A numerical study for a novel super-time-stepping method with one-dimensional nonlinear parabolic equations [12345-54]**
- 12345 0C **The application of residue theorem in Mellin transform integrals [12345-27]**
- 12345 0D **Solved horses-in-pursuing problem with complex analysis [12345-66]**
- 12345 0E **On the solutions of space-time KdV type fractional differential equations [12345-28]**
- 12345 0F **The prime number theorem via Fourier transformation [12345-62]**
- 12345 0G **Application of the residue theorem in a special kind of real integral [12345-33]**
- 12345 0H **Taylor's way of continuity random variable [12345-48]**

- 12345 OI **Interval-valued intuitionistic fuzzy (1,2)-ideals of semigroups [12345-47]**
- 12345 OJ **Applications of singular value decomposition in data reduction [12345-14]**
- 12345 OK **Newton iteration finite volume element approximation for the Cahn-Hilliard equation [12345-6]**

APPLIED STATISTICS AND PROBABILISTIC ALGORITHM ANALYSIS

- 12345 OL **The application of Poincare map in periodic solutions in dynamical systems and the classification of planar systems [12345-22]**
- 12345 OM **Consistency of the non-parametric MTE approach with the random forest [12345-23]**
- 12345 ON **A research on pricing of a dual-channel supply chain based on Stackelberg game under fairness concerns [12345-36]**
- 12345 OO **Research on greedy and genetic algorithm on landing flights in airports [12345-63]**
- 12345 OP **Efficient frontier optimization: simple customer system [12345-20]**
- 12345 OQ **Quadratic generalized ball curve with three parameters [12345-19]**
- 12345 OR **Population distribution and influencing factors in Long Hai-Lan Xin Economic Zone: empirical analysis based on spatial statistical model [12345-35]**
- 12345 OS **The application of survival analysis in the residence period of floating population [12345-24]**
- 12345 OT **Applied statistics and probability theory in the application of economic inquiry [12345-11]**
- 12345 OU **Quality evaluation of mediation of conflicts and disputes based on fuzzy comprehensive evaluation method: take H city as an example [12345-61]**
- 12345 OV **Study on environmental assessment of Saihanba based on AHP-EWM and linear clustering [12345-52]**
- 12345 OW **Analysis of the implementation effect of the "two children" policy of Harbin city and its influencing factors: based on SPSS and Chi-squared test application statistics data model [12345-7]**
- 12345 OX **A study on tourism service quality improvement of Zhaoxing Dong Village in Guizhou based on IPA method [12345-2]**
- 12345 OY **Research on an obstacle recognition algorithm of field road network [12345-44]**
- 12345 OZ **On the influence of original probability and subsequent probability on the victory of bridge [12345-38]**

- 12345 10 **Research on trajectory evaluation of unmanned aerial vehicle based on TOPSIS** [12345-60]
- 12345 11 **Research on a global static planning algorithm of field road network** [12345-46]
- 12345 12 **An SVM CHD prediction study with optimal parameters** [12345-39]

COMPUTER MODEL APPLICATION AND SOFTWARE ENGINEERING

- 12345 13 **A design of high-speed railway internet of things security architecture** [12345-64]
- 12345 14 **A design method of radar jamming simulation software** [12345-42]
- 12345 15 **Application of stochastic models in COVID-19** [12345-1]
- 12345 16 **Construction of the model of the ordering and transportation of enterprise raw materials based on multi-objective programming** [12345-4]
- 12345 17 **Early warning evaluation model of dynamic adjustment of higher vocational majors based on AHP** [12345-5]
- 12345 18 **The analysis of vaccination and the prediction model based on the seasonal-ARIMA model** [12345-59]
- 12345 19 **Prediction of SSE 50 index based on ARMA model** [12345-9]
- 12345 1A **Evaluation method of equipment system contribution rate based on machine learning** [12345-56]
- 12345 1B **Short-term prediction of bitcoin value based on ARIMA model** [12345-26]
- 12345 1C **The role of institutional investors in stock split: regression analysis based on STATA software** [12345-32]
- 12345 1D **Research on network K-terminal reliability modeling based on fault tree and Bayesian model** [12345-45]
- 12345 1E **Construction of evaluation model of rainstorm and flood disaster in Xinjiang and its temporal and spatial distribution characteristics** [12345-34]
- 12345 1F **Research on evolutionary game of cooperative innovation between upstream and downstream enterprises of new energy vehicles under government regulation** [12345-16]
- 12345 1G **Online video popularity modeling research** [12345-53]
- 12345 1H **Research on evaluation of digital innovation level of service-oriented manufacturing enterprises based on AHP-TOPSIS** [12345-8]

- 12345 1I **Application example of GTD data set analysis in Guatemala terrorist attack cases based on GM (1,1) model [12345-58]**
- 12345 1J **Convergence analysis of semi-implicit EM method for Black-Scholes option pricing model [12345-13]**
- 12345 1K **An image registration technology for fault detection of EMU underbody [12345-65]**
- 12345 1L **Intelligent reservoir dynamic analysis management system [12345-17]**
- 12345 1M **Bitcoin and gold investment strategy based on LSTM and Markowitz portfolio investment theory [12345-25]**
- 12345 1N **A study on the control strategies of COVID-19 based on household model [12345-3]**
- 12345 1O **Research on the influence of carbon emission trading policy on economic performance and environmental performance of heavy polluting enterprises [12345-21]**
- 12345 1P **The influence of high-speed rail on international technology spillover in China: an empirical analysis based on PPML model [12345-55]**

Conference Committee

Conference Chairs

Steven Guan, Xi'an Jiaotong-Liverpool University (China)
Haibin Zhu, Nipissing University (Canada)

Program Committee

Grigorios Beligiannis, University of Patras (Greece)
Hailu Xu, Florida International University (United States)
Addisson Salazar, Universitat Politècnica de Valencia (Spain)
Yu-Dong Zhang, University of Leicester (United Kingdom)
Lai Chin Wei, University of Malaya (Malaya)
Rahul K. Kher, Charutar Vidya Mandal University (India)
Yuhazri M. Y., Universiti Teknikal Malaysia Melaka (Malaysia)

Technical Program Committee

Seppo Sirkemaa, University of Turku (Finland)
Antonios Andreatos, Hellenic Air Force Academy (Greece)
Cristina Freitas, University of Coimbra (Portugal)
Luís Miguel Nunes Corujo, Universidade do Porto (Portugal)
Carlos Guardado da Silva, University of Lisbon (Portugal)
Luís Corujo, University of Lisbon (Portugal)
Jorge Sequeira, Lisbon Accounting and Business School Polytechnic University (Portugal)
Muhammad Imran Babar, National University of Computer and Emerging Sciences (Pakistan)
Sze Mun Lam, Universiti Tunku Abdul Rahman (Malaysia)
Sail Latefa, Aboubekr Belkaid University (Algeria)
Hailu Xu, Florida International University (United States)
Paulo Batista, University of Évora (Portugal)
