Volume 12522

Proceedings of SPIE 0277-786X, V. 12522

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Big Data V: Learning, Analytics, and Applications, edited by Panos P. Markopoulos, Bing Ouyang, Vagelis Papalexakis, Proc. of SPIE Vol. 12522, 1252201
© 2023 SPIE · 0277-786X · doi: 10.1117/12.2690692

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Big Data V: Learning, Analytics, and Applications*, edited by Panos P. Markopoulos, Bing Ouyang, Vagelis Papalexakis, Proc. of SPIE 12522, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

METHODS I

12522 04 **Deployment of the Pseudorandom Encoded light for Evaluating Biomass (PEEB) sensor in an Integrated Multi-Trophic Aquaculture (IMTA) system** [12522-3]

12522 06 **Multimodal aerial view object classification with disjoint unimodal feature extraction and fully connected-layer fusion** [12522-5]

12522 07 **Learned image compression with transformers (Best Student Paper Award)** [12522-6]

12522 08 **Ethical data splitting utilizing L1-norm principal component analysis (Student Paper Award)** [12522-7]

SYSTEMS AND TECHNOLOGY

12522 09 **An adaptive approach to blockchain in smart system applications** [12522-8]

12522 0A **Enabling enterprise autonomy development with a unified data infrastructure** [12522-9]

12522 0B **Cognitive dynamic digital twin: enhancements for digital twin platforms based on human cognition** [12522-10]

METHODS II

12522 0C **Unsupervised training dataset curation for deep-neural-net RF signal classification** [12522-11]

12522 0D **Continuous human activity recognition using a MIMO radar for transitional motion analysis** [12522-12]

12522 0E **Exploring the tractability of data fusion models for detecting anomalies in IoT-based dataset** [12522-13]

METHODS III

12522 0F **SAD: self-supervised avionic diagnostics** [12522-14]

Conference Committee

Symposium Chairs

Tien Pham, The MITRE Corporation (United States)
Douglas R. Droege, L3Harris Technologies, Inc. (United States)

Symposium Co-chairs

Augustus W. Fountain III, University of South Carolina (United States)
Teresa L. Pace, L3Harris Technologies, Inc. (United States)

Program Track Chair

David W. Messinger, Rochester Institute of Technology (United States)

Conference Chairs

Panos P. Markopoulos, The University of Texas at San Antonio (United States)
Bing Ouyang, Florida Atlantic University (United States) and Harbor Branch Oceanographic Institute (United States)
Vagelis Papalexakis, University of California, Riverside (United States)

Conference Program Committee

Fauzia Ahmad, Temple University (United States)
Moeness G. Amin, Villanova University (United States)
Gonzalo R. Arce, University of Delaware (United States)
Abdesselam Salim Bouzerdoum, University of Wollongong (Australia)
Ali Cafer Gurbuz, Mississippi State University (United States)
Dimitris A. Pados, Florida Atlantic University (United States)
Piya Pal, University of California, San Diego (United States)
Ashley Prater-Bennette, Air Force Research Laboratory (United States)
Zhijun G. Qiao, The University of Texas Rio Grande Valley (United States)
Ervin Sejdic, University of Toronto (Canada)
George Sklivanitis, Florida Atlantic University (United States)
Adrian Stern, Ben-Gurion University of the Negev (Israel)
