PROCEEDINGS OF SPIE

Fourth International Conference on Advanced Manufacturing Technology and Electronic Information (AMTEI 2024)

Wennian Yu
Aniruddha Bhattacharjya
Wenfeng Hu
Editors

20–22 September 2024
Chongqing, China

Organized by
Shenzhen Technology University (China)

Sponsored by
AEIC—Academic Exchange Information Centre (China)

Published by
SPIE

Volume 13515

Proceedings of SPIE 0277-786X, V. 13515

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Fourth International Conference on Advanced Manufacturing Technology and Electronic Information (AMTEI 2024),
edited by Wennian Yu, Aniruddha Bhattacharjya, Wenfeng Hu, Proc. of SPIE Vol. 13515, 1351501
© 2025 SPIE · 0277-786X · doi: 10.1117/12.3060684

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Fourth International Conference on Advanced Manufacturing Technology and Electronic Information (AMTEI 2024)*, edited by Wennian Yu, Aniruddha Bhattacharjya, Wenfeng Hu, Proc. of SPIE 13515, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ix *Conference Committee*

INTELLIGENT MECHANICAL DESIGN AND ADVANCED MANUFACTURING

13515 02 **Exploration of figure models based on computer modeling and light-curing 3D printing technology** [13515-93]

13515 03 **Optimization of layering algorithm for melt deposition 3D printers** [13515-7]

13515 04 **Design and topology research of memory modules based on flexible substrates** [13515-84]

13515 05 **Thermodynamic analysis in additive manufacturing simulation based on flanges** [13515-44]

13515 06 **Studying on design and manufacture of the customized cam using artificial intelligence** [13515-41]

13515 07 **Application of intelligent chip technology based on mobile terminal in UHV equipment management** [13515-51]

13515 08 **Plasmonically-enhanced wide-waveband photodetector based on monolayered molybdenum disulfide** [13515-43]

13515 09 **Process optimization of wet stirred disc-pin milling based on CFD-DEM** [13515-46]

13515 0A **Design and simulation analysis of the architecture of the comprehensive test bench for automotive steering gear using MATLAB software** [13515-14]

13515 0B **Design and development of residual stress control system for additive manufacturing-rolling of thin-walled tank bodies** [13515-13]

13515 0C **Design of a triple-band dual circularly polarized noncentralized microstrip antenna** [13515-86]

13515 0D **Design of a digital ultrasonic Doppler fetal heart rate detection system** [13515-3]

13515 0E **Single event transient radiation hardened by design for bandgap reference based on filtering and isolation technique** [13515-8]

13515 0F **Fabrication strategy and process optimization of cross-layer interconnection wires based on electrospraying** [13515-9]

13515 0G **Lightweight design and dynamic performance optimization of automotive steering knuckles** [13515-55]

13515 0H **Design of a wearable wireless surface EMG acquisition device based on STM32F411** [13515-6]

13515 0I **Design and simulation analysis of installation device for photovoltaic module corner code and aluminum profile tube** [13515-64]

13515 0J **Optimisation of automotive valve motor regulator based on Grey Wolf algorithm** [13515-82]

13515 0K **Integrated waveform design of radar communication based on Gurobi** [13515-10]

13515 0L **Structural reconstruction of automotive sensors based on Fourier ptychographic microscopy** [13515-59]

13515 0M **Theoretical study of a dual-wavelength laser amplifier based on intracavity pumping technology** [13515-19]

13515 0N **Physical modeling and experimental characterization of high gain bandwidth accumulated avalanche photodiodes** [13515-81]

13515 0O **Design of ESP8266-based universal IoT remote control** [13515-75]

MECHANICAL PERFORMANCE ANALYSIS AND FAULT DIAGNOSIS

13515 0P **Internal short circuit simulation analysis based on electrochemical-thermal coupling model** [13515-69]

13515 0Q **Multi-sensor fusion-based in-process monitoring technology for vertical milling cutter damage and breakage detection** [13515-35]

13515 0R **Research on vibration fault diagnosis of fan rotor rotation test system** [13515-23]

13515 0S **CS-YOLO: a YOLOv5-based SMT defect detection algorithm** [13515-20]

13515 0T **Seismic qualification test of the safety lighting system of the HPR1000 main control room** [13515-73]

13515 0U **Research on combat mission planning technology and application of small UAV cluster** [13515-89]

13515 0V **Research on failure prediction of industrial mechanical equipment based on decision tree model** [13515-87]

13515 0W **Fault diagnosis of induction motor rotor broken bar based on GWO-SVMD-1D CNN** [13515-17]

13515 0X **Lead-free compensation mud of radiographic inspection for steel material** [13515-26]

13515 0Y **Study on the dynamic characteristics of displacement gears considering friction and geometric eccentricity** [13515-11]

13515 0Z **Analysis of wear characteristics of coal particles with different particle sizes in the middle trough of a scraper conveyor** [13515-63]

13515 10 **Measurement of white light semiconductor laser junction temperature based on center-of-mass wavelength and integration width** [13515-16]

13515 11 **Insertion behavior and characteristics of PETG steerable needle** [13515-54]

13515 12 **Vibration characteristics of spinning and axially moving pipes conveying fluid** [13515-48]

13515 13 **Impact analysis of temperature on the fatigue life of VSC-HVDC protection devices** [13515-76]

13515 14 **Fault diagnosis of wind turbine gearbox based on VMD-XGBoost model optimization** [13515-32]

13515 15 **Optimized performance routing protocol with link failure prediction and reconstruction in mobile Ad Hoc networks** [13515-22]

13515 16 **NDN in tactical networks: an adaptive interface status-aware forwarding strategy** [13515-71]

13515 17 **Fatigue life prediction for corrugated compensators in high-pressure pipelines based on multiple factors correction** [13515-38]

13515 18 **Passive control for a class of nonlinear singular Hamiltonian systems** [13515-45]

13515 19 **Research on photovoltaic power tracking based on IGWO-INC algorithm** [13515-30]

13515 1A **Adaptive robust control of saturated constrained hydro-generating units based on static output feedback** [13515-49]

13515 1B **Input-output finite-time adaptive control of nonlinear descriptor Hamiltonian systems** [13515-21]

13515 1C **Construction of drive mode control function model for electric vehicle controller** [13515-53]

13515 1D **Analysis of fatigue life of planetary frame of continuous shearer cutting system** [13515-62]

13515 1E **SiC MOSFET study on the static characteristics of models affected by temperature** [13515-67]

13515 1F **Signal noise reduction method based on parametric optimization of variational mode decomposition** [13515-77]

13515 1G **Production workshop AGV path planning method based on improved artificial potential field** [13515-56]

13515 1H **Multi-AGV task scheduling based on improved double-chromosome genetic algorithm** [13515-61]

13515 1I **Real-time bus arrival time query system based on prediction algorithm** [13515-25]

13515 1J **Machine vision-based mapping method for angularly modified spur gears** [13515-4]

13515 1K **Dynamic visualization system development of global long-time series of nighttime lights based on PIE cloud platform** [13515-29]

13515 1L **A method for feature extraction of integrated energy equipment based on big data technology** [13515-91]

13515 1M **Research on multi-target radar signals tracking technology** [13515-60]

13515 1N **Visible light positioning system based on an improved weighted k-nearest neighbor algorithm** [13515-36]

13515 1O **Nonreciprocal image encryption/decryption based on diffraction neural network** [13515-80]

13515 1P **Investigation on algorithm of GPS multi-satellites parallel acquisition** [13515-79]

13515 1Q **Research on high-accuracy classification of temperature signals based on OFDR technology and EfficientNet** [13515-15]

13515 1R **Deep-learning-based position prediction model for lost submarines** [13515-85]

13515 1S **PAPR reduction hybrid scheme for VLC systems based on conventional algorithm and neural network** [13515-37]

13515 1T **User capacity analysis of high-orbit multibeam satellite system** [13515-72]

13515 1U **Interactive multiple model algorithm based on ellipsoidal and linear constraints** [13515-70]

13515 1V **Multi-task oriented semantic communication model for deep images** [13515-52]

13515 1W **Research on priority-driven routing protocol for MANETs** [13515-40]

13515 1X **Status and prospects of mechanical precision machining technologies: an econometric analysis of literature based on 2019–2024** [13515-66]

13515 1Y **Multi-input multi-output underwater acoustic communication based on OTSM-IM** [13515-68]

13515 1Z **A hybrid feature recognition method based on loop-attributed adjacency graph and based on hint** [13515-90]

13515 20 **A UAV track planning method based on improved and simplified particle swarm** [13515-2]

13515 21 **Optical reservoir computing based on the bagging trees** [13515-34]

13515 22 **Study on fire evacuation route planning for public buildings** [13515-50]

Conference Committee

Conference General Chair

Kolla Bhanu Prakash, Koneru Lakshmaiah Education Foundation (India)

Publication Chairs

Wennian Yu, Chongqing University (China)
Aniruddha Bhattacharjya, Bcbrbab Intercontinental Trading Solutions Private Ltd. (India)
Wenfeng Hu, Central South University (China)

Technical Program Committee Chair

Bo Dong, Shenzhen Technology University (China)

Organizing Committee Chair

Yunji Yi, Shenzhen Technology University (China)

Publicity Chair

Yongwei Wu, Shenzhen Technology University (China)

Organizing Committee

Qixin Cao, Shanghai Jiao Tong University (China)
Bin Liu, Dalian University of Technology (China)
Weibing Zhu, Xihua University (China)
Tao Yu, Tongji University (China)
Sirong Yu, China University of Petroleum (China)
Yunji Yi, Shenzhen Technology University (China)
Zhiqiang Wang, Dalian University of Technology (China)
Zheng Liu, Dalian University of Technology (China)
Jin-Yuan Wang, Nanjing University of Posts and Telecommunications (China)
Rongyun Zhang, Anhui Polytechnic University (China)

Technical Program Committee

Richard (Chunhui) Yang, Western Sydney University (Australia)
Hazizan Md Akil, Universiti Sains Malaysia (Malaysia)
Abdul Talib bin Din, Universiti Teknikal Malaysia Melaka (Malaysia)
Ziad Moumni, ENSTA ParisTech (France)
Gang Li, University of Maryland Baltimore County (United States)
Mohd Fadzli Bin Abdollah, Universiti Teknikal Malaysia Melaka (Malaysia)
Mamoun Fellah, Khenchela University (Algeria)

M. Deniz Turan, Firat University (Turkey)
Muhammad Majid Gulzar, University of Central Punjab (Pakistan)
Sajid Iqbal, University of Engineering and Technology, Lahore (Pakistan)
Shuping Dang, University of Oxford (United Kingdom)
Kuan Yew Wong, Universiti Teknologi Malaysia (Malaysia)
Lee Hwang Sheng, Universiti Tunku Abdul Rahman (Malaysia)
Mukuna Patrick Mubiayi, University of Johannesburg (South Africa)
Mohamed Kamal Ahmed Ali, Wuhan University of Technology (Egypt)
Nan-Chyuan Tsai, National Cheng Kung University (China)
Chunjiang Zhou, Zhejiang Institute of Mechanical and Electrical Engineering (China)
Anhui Liang, Guangdong University of Technology (China)
Rongjie Wang, Marine Engineering Institute of Jimei University (China)
Xiucheng Liu, Beijing University of Technology (China)
Liang Zhang, Jiangsu Normal University (China)
Yongmao Xiao, Xinyang Normal University (China)
Dan Xue, Shenyang University of Technology (China)
Shichang Xiao, Shanghai Maritime University (China)
Ran Zhao, Jiangxi Province Key Laboratory of Precision Drive & Control (China)
