

PROCEEDINGS OF SPIE

Thin Films for Solar and Energy Technology VIII

**Michael J. Heben
Mowafak M. Al-Jassim**
Editors

**28–29 August 2016
San Diego, California, United States**

Sponsored and Published by
SPIE

Volume 9936

Proceedings of SPIE 0277-786X, V. 9936

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Thin Films for Solar and Energy Technology VIII, edited by Michael J. Heben,
Mowafak M. Al-Jassim, Proc. of SPIE Vol. 9936, 993601 · © 2016 SPIE
CCC code: 0277-786X/16/\$18 · doi: 10.1117/12.2262143

Proc. of SPIE Vol. 9936 993601-1

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Thin Films for Solar and Energy Technology VIII*, edited by Michael J. Heben, Mowafak M. Al-Jassim, Proceedings of SPIE Vol. 9936 (SPIE, Bellingham, WA, 2016) Six digit article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a six-digit CID article numbering system structured as follows:

- The first four digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

- v *Authors*
vii *Conference Committee*

SIMULATION AND ADVANCED CONCEPTS

- 9936 03 **Ultra-high aspect ratio copper nanowires as transparent conductive electrodes for dye sensitized solar cells** [9936-3]

CZTS AND CIGS

- 9936 07 **Crystallographic and optoelectronic properties of the novel thin film absorber Cu_2GeS_3** [9936-10]

PEROVSKITES

- 9936 0B **Hysteresis dependence on $\text{CH}_3\text{NH}_3\text{PbI}_3$ deposition method in perovskite solar cells** [9936-15]

POSTER SESSION

- 9936 0I **Design and simulation of a MEM pressure microgripper based on electrothermal microactuators** [9936-21]
- 9936 0L **Room temperature deposition of zinc oxide thin films by rf-magnetron sputtering for application in solar cells** [9936-24]

Authors

Numbers in the index correspond to the last two digits of the six-digit citation identifier (CID) article numbering system used in Proceedings of SPIE. The first four digits reflect the volume number. Base 36 numbering is employed for the last two digits and indicates the order of articles within the volume. Numbers start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B...0Z, followed by 10-1Z, 20-2Z, etc.

Conference Committee

Symposium Chair

Oleg V. Sulima, GE Global Research (United States)

Conference Chairs

Michael J. Heben, The University of Toledo (United States)

Mowafak M. Al-Jassim, National Renewable Energy Laboratory
(United States)

Conference Program Committee

Bulent Basol, EncoreSolar, Inc. (United States)

Howard M. Branz, National Renewable Energy Laboratory
(United States)

Paola Delli Veneri, ENEA (Italy)

David S. Ginley, National Renewable Energy Laboratory
(United States)

Ivan Gordon, IMEC (Belgium)

William N. Shafarman, University of Delaware (United States)

Ayodhya N. Tiwari, EMPA (Switzerland)

Session Chairs

- 1 Simulation and Advanced Concepts
Mowafak M. Al-Jassim, National Renewable Energy Laboratory
(United States)
- 2 Light Management
Mowafak M. Al-Jassim, National Renewable Energy Laboratory
(United States)
- 3 CZTS and CIGS
Rolf Ötting, Friedrich-Schiller-Universität Jena (Germany)
- 4 Perovskites
Vincenzo Lordi, Lawrence Livermore National Laboratory
(United States)
