Volume 12108

Proceedings of SPIE 0277-786X, V. 12108

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

Radar Sensor Technology XXVI, edited by Kenneth I. Ranney, Ann M. Raynal, Proc. of SPIE
Vol. 12108, 1210801 · © 2022 SPIE · 0277-786X · doi: 10.1117/12.2643540

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Radar Sensor Technology XXVI*, edited by Kenneth I. Ranney, Ann M. Raynal, Proc. of SPIE 12108, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

WAVEFORMS AND PHENOMENOLOGY

12108 02 **Performance evaluation and field trial of chirp spread spectrum waveform for low probability of intercept applications** [12108-1]

12108 03 **Harmonic response vs. target orientation: a preliminary study of the effect of polarization on nonlinear junction detection** [12108-2]

12108 04 **Analysis of buried target and clutter signature in ground penetrating radar imaging** [12108-3]

12108 05 **Statistical distributions of POLSAR observables** [12108-4]

SYSTEMS AND APPLICATIONS

12108 06 **Development of polarimetric radar product and initial application for airborne HIWC detection** [12108-6]

ALGORITHMS, PROCESSING, AND MICRO-DOPPLER

12108 07 **Deep learning for classification of targets using low-frequency ultra-wideband synthetic aperture radar imagery** [12108-8]

12108 08 **Multiple order difference based radio frequency (RF) signal processing** [12108-9]

12108 09 **Converting bistatic radar measurements to Cartesian position for tracking** [12108-10]

12108 0A **Multiple drone type classification using machine learning techniques based on FMCW radar micro-Doppler data** [12108-11]

12108 0B **Semi-supervised attention-augmented convolutional autoencoder for radar-based human activity recognition** [12108-12]

STUDENT RESEARCH IN ALGORITHMS AND PROCESSING I

12108 0C **Radar technical language modeling with named entity recognition and text classification** [12108-13]

12108 0D **Three-dimensional anti-jamming array processing for GNSS-based navigational aid inspection** [12108-16]

STUDENT RESEARCH IN SYSTEMS AND APPLICATIONS

12108 0E **Real-time transponder detection using open-source software-defined radio receiver architecture for harmonic radar systems** [12108-17]

12108 0F **Design and experimentation of a dual-band, full-polarization, side-looking synthetic aperture radar using an RF system-on-a-chip** [12108-18]

12108 0G **Fusing SAR and EO imagery using CNN RGB-input channels, feature level, and decision level fusion** [12108-19]

12108 0H **RF dielectric measurements on engineering fluids for jet impingement cooling** [12108-42]

STUDENT RESEARCH IN PHENOMENOLOGY

12108 0I **Application of impulse radar to snow and ice penetration: a case for supporting snow layer modeling and characterizations** [12108-20]

12108 0J **Analysis of antenna array patterns for multiple squad configurations** [12108-22]

STUDENT RESEARCH IN RADAR MICRO-DOPPLER

12108 0K **Experimental analysis of micro-Doppler characteristics of drones and birds for classification purposes** [12108-24]

12108 0L **Applying the wavelet transform to radar signals for drone classification using convolutional neural networks** [12108-25]

STUDENT RESEARCH IN ALGORITHMS AND PROCESSING II

12108 0M **Deep learning on trajectory images** [12108-28]

12108 0N **Domain fusion based feature extraction for SAR ATR** [12108-29]

12108 0O **Mobile distributed mesh network optimization with a black box optimizer** [12108-30]

12108 0P **Radar applications of orthogonal Sudoku arrays and Costas cubes** [12108-31]

12108 0Q **Generation and estimation of randomly maneuvering target trajectories towards metacognitive tracking radar applications** [12108-32]

12108 0R **Automatic modulation classification of NLFM radar signal in multipath conditions** [12108-33]

MILLIMETER WAVE RADAR: JOINT SESSION WITH CONFERENCES 12108 AND 12111

12108 0S **94 GHz Doppler radar for experimental validation of small UAV micro-Doppler** [12108-34]

12108 0T **G-band FMCW Doppler radar for sea clutter and target characterization** [12108-35]

12108 0U **Concept and design of precise radar sensor for relative navigation in ocean environment** [12108-36]

POSTER SESSION

12108 0V **Impact of radar flightpath on synthetic aperture radar image height of focus** [12108-37]

12108 0W **Time-space processing for small ship detection in SAR** [12108-43]

12108 0X **An application of the delay line differentiator for pulse characterization** [12108-47]

Conference Committee

Symposium Chairs

Augustus W. Fountain III, University of South Carolina (United States)
Teresa L. Pace, L3Harris Technologies, Inc. (United States)

Program Track Chair

Ann Marie Raynal, Sandia National Laboratories (United States)

Conference Chairs

Kenneth I. Ranney, U.S. Army Research Laboratory (United States)
Ann M. Raynal, Sandia National Laboratories (United States)

Conference Program Committee

Matthew J. Brandsema, The Pennsylvania State University (United States)
Joseph C. Deroba, U.S. Army Combat Capabilities Development Command (United States)
Armin Doerry, Sandia National Laboratories (United States)
Kahlil R. Gedin, Naval Surface Warfare Center Dahlgren Division (United States)
Mark Govoni, U.S. Army Research Laboratory (United States)
Sevgi Zubeyde Gurbuz, The University of Alabama (United States)
Majeed Hayat, Marquette University (United States)
Abigail S. Hedden, U.S. Army Combat Capabilities Development Command (United States)
Chandra Kambhamettu, University of Delaware (United States)
Seong-Hwoon Kim, Spartan Radar (United States)
Bing Li, Lockheed Martin Systems Integration-Owego (United States)
Changzhi Li, Texas Tech University (United States)
Neeraj Magotra, Western New England University (United States)
Anthony F. Martone, U.S. Army Research Laboratory (United States)
Gregory J. Mazzaro, The Citadel (United States)
Ram M. Narayanan, The Pennsylvania State University (United States)
Marius Necsoiu, U.S. Army Research Laboratory (United States)
Lam H. Nguyen, U.S. Army Research Laboratory (United States)
Thomas J. Pizzillo, U.S. Naval Research Laboratory (United States)
Zhijun G. Qiao, The University of Texas-Pan American (United States)
David Tahmoush, Northeastern University (United States)
Julio V. Urbina, The Pennsylvania State University (United States)
Russell Vela, U.S. Army Space and Missile Defense Command (United States)

Salvador E. Venegas-Andraca, Tecnológico de Monterrey (Mexico)
Yan Zhang, The University of Oklahoma (United States)
Ruolin Zhou, University of Massachusetts Dartmouth (United States)
Duncan A. Robertson, University of St. Andrews (United Kingdom)
David A. Wikner, U.S. Army Research Laboratory (United States)
